

ACCEL REALTY PARTNERS

MENTOR PROGRAM

THE ACCELERATION OF REAL ESTATE

The Accel Realty Partners Mentor Program is a comprehensive training and support structure for any who are new to real estate, or those who are experiencing challenges in the business, to connect with seasoned Agents for guidance, advice, and support. A “Mentor” is a trusted and experienced advisor who has a direct interest in the development of a less experienced individual. A Mentor makes a commitment to an assigned “Mentee” to help them grow into a successful independent entrepreneur and business owner.

A Mentee depends on their Mentor for advice and guidance, provides an open door to questions and problems, and seeks opportunities for improvement.

Working together, this program benefits all parties and builds a foundation of experience that promotes future successes.

Study after study show that those who achieve the highest levels of success in real estate most likely had a Mentor in their early years of the business.
